Fuel Economy & Greenhouse Gas Rating (tailpipe only)

4

This vehicle emits 493 grams CO₂ per mile. The best emits 0 grams per mile (tailpipe only). Producing and
distributing fuel also create emissions; learn more at fuel economy.gov.

Smog Rating (tailpipe only)

5

This vehicle is equipped with a front bumper that has been tested at an impact speed of * mph and a rear bumper that
has been tested at an impact speed of * mph, and has sustained no damage to the vehicle's body and minimal damage
to the bumper and attachment hardware. Minimal damage to the bumper means damage that can be repaired with the
use of common repair materials and without replacing any parts. The stronger the bumper, the less likely the car will
require repair after a low speed collision. However, this vehicle is equipped with a bumper system that, under federal
bumper standard test conditions and procedures, can withstand a frontal impact speed of 2.5 mph and a rear impact
speed of 2.5 mph with no more damage than allowed by federal bumper standard. *Not tested to specifics of N.Y. Law

This label has been affixed to this vehicle pursuant to the requirements of U.S.C. 15§ 1231 et seq., which prohibits its
removal or alteration prior to delivery to the ultimate purchaser.

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your
vehicle. The average new vehicle gets 23 MPG and costs \$11,500 to fuel over 5 years. Cost estimates are
based on 15,000 miles per year at \$3.75 per gallon. MPGe is miles per gasoline gallon equivalent. Vehicle
omissions are a significant cause of climate change and smog.
